Any kind of outside fire is subject to a \$200. fine if  
started without obtaining a permit. Charles Duval or  
Richard G. Crocker have charge of these permits.

Every new building, sign or new business requires  
a permit from the Administrative Official.

Be sure to state legal address in addition to mailing  
address when required to do so.

**TOWN WARRANT**  
**State of New Hampshire**

To the Inhabitants of the Town of Amherst in the  
County of Hillsborough in said State,  
qualified to vote in Town Affairs:

You are hereby notified to meet at the Town Hall  
in said Amherst on Tuesday, the 10th day of March  
next, at ten of the clock in the forenoon to act upon  
the following subjects:

1. To choose all necessary Town Officers for the  
year ensuing.

**Polls open at 10 A. M. and close at 7 P. M.**

**Business Meeting at 8 P. M.**

**The Voting on Articles 1 through 8 Will Be  
on the Town Ballot**

2. To see if the Town will vote to make the follow-  
ing change upon the "Zoning Map of the Town of Am-  
herst, New Hampshire" dated February 1963:

Change that portion of the existing Transition Dis-  
trict which lies south of the Milford Road (Route  
101-A) from a point commencing 1100 feet from the  
easterly beginning of the Transition District to a point  
390 feet going westerly, to a Commercial District.

3. To see if the Town will vote to make the follow-  
ing change upon the "Zoning Map of the Town of Am-  
herst, New Hampshire" dated February 1963:

Extend the Industrial District which lies south of  
the Old Nashua Road and north of the Hollis-Amherst  
town line, in an easterly direction to the end of the  
existing Transition District, thence southerly on a line  
perpendicular to the Hollis-Amherst town line so as to  
encompass the land now in the Rural District which lies  
between the southern bound of the existing Transition  
District and the Hollis-Amherst town line.

4. To see if the Town will vote to amend the Zoning Ordinance of the Town of Amherst as follows:

Add to Section 5-6 pertaining to uses permitted by special exception in the Rural District the following new sub-section:

j. Inns, cabins, motels or other transient space provided that each individual rented space, in the case of cabin or a motel, shall be supplied with running water and toilet facilities within the rented unit.

5. To see if the Town will vote to amend the Zoning Ordinance of the Town of Amherst as follows:

1. Add the following in its proper alphabetical location to Article IX entitled "Definitions":

"PLANNED DEVELOPMENT" – the use of an area of land 10 acres or larger for any purposes allied to commercial or industrial use, provided however,

(a) not more than 40% of the total area of plot be occupied by buildings.

(b) no structure be built nearer than 100 feet where the plot abuts RE, L, or T District."

2. In line "I" of Section 5-6 make the word "Development" plural and remove the word "Group" from the first sentence.

6. To see if the Town will vote to amend the Zoning Ordinance of the Town of Amherst as follows:

Revise Section 6-3 which has to do with the Board of Adjustment by:

1. having Paragraph "F," which has to do with the procedure of the Board of Adjustment on permits for special exceptions and variances, become "F(1)"

2. striking after "F(1)" the words "and variances"

3. striking from subparagraph 1 the words "or variances"

4. striking from subparagraph 2 the words "or a variance"

5. adding a new paragraph "F(2)" which shall be headed "Procedure for Permits based upon a Variance" and shall read:

1. "Upon receipt from the Administrative Official of a request for a permit based upon the granting of a variance, the Board of Adjustment shall

(a) Post a notice of such request in two public places in the Town of Amherst for a period of not less than seven days, at the same time,

(b) give written notice to all abutters of such request.

2. If, within ten days after the date of posting of the notice required in 1 above from any legal resident, the Board of Adjustment receives any written objection to the granting of the variance requested, it shall

(a) fix a reasonable time for a hearing upon the request,

(b) proceed as outlined in Subparagraph b, c, and d of "F(1)" - 2 above.

3. If after ten days of the notice of the request no written objection has been received by the Board of Adjustment, it shall then study the merits of the application and act at its discretion in accord with the spirit and the intent of this ordinance. In such action it may impose such additional requirements as it may deem necessary to meet the needs of the particular case.

4. No variance, however, shall be granted under this subsection to allow a structure or use in a zone where such use is not enumerated as a principal permitted use in said zone."

7. To see if the Town will vote to amend the Zoning Ordinance of the Town of Amherst as follows:

1. relocate Paragraph "J" of Section 6-3 to immediately before Paragraph G and to designate the same as Paragraph "F(3)" and head the same to read "Conditions for the Granting of a Variance"

2. designate existing Paragraph "K" of Section 6-3 as "J."

8. To see if the Town will vote to amend the Zoning Ordinance of the Town of Amherst as follows:

1. Remove line No. 5 under "A" under Section 4-5 which has to do with permitted uses in the Rural District.

2. Add a sub-paragraph 3-7 to Article III (General Provisions) which shall read:

MOBILE HOMES AND TRAILERS — the storage of or use as a permanent residence of a house trailer or mobile home is prohibited in all districts of the Town except that the use of a mobile home as a place of permanent residence may be permitted on land fronting upon Truell Road and the Truell Road Extension as such roads exist at the time of the passage of this sub-section.

9. To see if the Town will vote to give the Selectmen and the Town Treasurer authority to borrow money in anticipation of taxes.

10. To see if the Town will vote to allow a discount of  $1\frac{1}{2}\%$  on the 1964 property taxes paid by May 1, 1964. Any person paying on their 1964 property tax bill an amount equal to 80% of their 1963 property tax to be allowed a discount of  $1\frac{1}{2}\%$  on their 1964 bill if paid in full by December 1, 1964.

11. To raise such funds and sums of money as may be necessary to defray Town Charges for the ensuing year and make appropriations for the same.

12. To see if the Town will authorize the Selectmen to sell and convey on such terms and conditions as the Selectmen deem to be in the best interest of the Town, the Proctor lot so-called, located on the southerly side of Route 101-A, said lot having been acquired by the Town of Amherst by Tax Collector's Deed.

13. To see if the Town will vote to authorize the expenditure of up to \$15,000 of such sums as may be realized from the sale of the Proctor land for the preparation of a tax map for the Town of Amherst, or take action relative thereto.

14. To see if the Town will vote to raise and appropriate the sum of \$1,000.00 to continue the plan started in 1958 for road improvement.

15. To see if the Town will vote to accept as Town Roads the following private roads which have been built to the specifications of the Road Agent and approved by the Selectmen:

1. Miles Road by Ralph House
2. Pinnacle Road by Holman McLean
3. Southfield Road by Holman McLean
4. Flanders Road by A. A. Knight
5. Pheasant Run by A. A. Knight
6. Old Coach Lane by A. A. Knight
7. Woodland Drive by Maurice Young (2nd half)
8. Pinewood Drive by Robert Currier (2nd half)

16. To see if the Town will vote to raise and appropriate the sum of \$760.00 to blacktop the Town Road known as Brookwood Drive, from the junction of the New Boston Road to the terminus of the said Brookwood Drive, a distance of 850 feet, or take any action relative thereto. (By Petition)

17. To see if the Town will vote to raise and appropriate the sum of \$585.00 for the purpose of paving 650 feet of Pinewood Drive, a duly accepted Town Road, or take any action relative thereto. (By Petition)

18. To see if the Town will vote to raise and appropriate the sum of \$2500 to blacktop the road known as Oak Hill, a duly accepted Town Road, a distance of 2100 feet, or take any action relative thereto. (By Petition)

19. To see if the Town will vote to raise and appropriate the sum of \$550 to gravel and blacktop the Town Road known as West Street in the Baboosic Lake section of the Town, or take any action relative thereto.

20. To see if the Town will vote to empower the Selectmen to accept as a Town Road any road that meets the following specifications:

(1) The right of way shall be at least 45 feet in width and conveyed to the Town by Deed.

(2) The finish grade shall be at least 24 feet in width.

(3) The roadbed shall be constructed by (a) removal of all loam and yielding materials for 30 feet in width, (b) shall have all boulders broken off at least 12 inches beneath the sub-grade, (c) the sub-grade shall be constructed of at least 12 inches of

gravel with a minimum width of 24 feet, (d) the finish grade shall be constructed of at least 4 inches of fine gravel such as will go through a 2-inch mesh screen, (e) shall have applied an asphalt surface of a minimum of 1¼ gallons per square yard mixed and placed, (f) shall have drainage and culverts installed where necessary.

(4) All Dead Ends shall be provided with a turnaround of at least 75 feet radius.

(5) A developer planning to make a new road must get in touch with the Selectmen and they with the Road Agent and the Road Commission to (a) see and approve the right of way; (b) at the completion of the roadbed before the application of gravel thereto.

21. To see if the Town will vote to raise and appropriate the sum of \$500.00 to continue the plan of Common Rehabilitation started in 1963 and recommended by the Tree Committee, or take any action relative thereto.

22. To see if the Town will vote to raise and appropriate the sum of \$150.00 to defray the Town's share of the White Pine Blister Rust Control or act in relation thereto.

23. To see if the Town will vote to raise and appropriate the sum of \$300.00 for the purpose of continuing the program of purchasing and having erected suitable street name signs commenced by the passage of Article 19 at Town meeting, March 13, 1962, or take action relative thereto.

24. To see if the Town will vote to raise and appropriate the sum of \$200.00 for the purpose of commencing a program of grading, filling and seeding town owned land south of Route 101-A (Milford Road)

near an area known as Mother Gardner's Crossing; such area to be used for public recreational purposes, or take any action relative thereto.

25. To see if the Town will vote to authorize the Board of Selectmen to take option or options in the name of the Town for the purchase of land or lands within the Town which based upon favorable report of the Planning Board, they deem might be desirable to acquire for present or future use as a site for needed public facilities such as recreational areas, town forests, cemeteries or public buildings; and to see if the Town will vote to raise and appropriate the sum of \$500 to be used to exercise such authority or act in relation thereto.

26. To see if the Town will vote to grant permission to the Congregational Church of Amherst, N. H. to install four loudspeakers in the church belfry, cost and maintenance to be the responsibility of the church. Said speakers are to be the exterior part of the installation of chimes.

27. To transact any other business that may legally come before the meeting.

Given under our hands and seal, this 24th day of February, in the year of our Lord nineteen hundred and sixty-four.

DEWEY W. SMITH,  
HERMON W. ANDERSON,  
FRANCIS E. WHALAND,  
Selectmen of Amherst

A true copy of Warrant — Attest:

DEWEY W. SMITH,  
HERMON W. ANDERSON,  
FRANCIS E. WHALAND,  
Selectmen of Amherst

## REPORT OF HIGHWAY AGENT

The following is a summarized report of this Department's activities during the past year.

1. Winter Maintenance, \$19,745.48. Again your highway department experienced an average winter season during 1963. During the winter months the highway department is busy plowing snow, winging back snow with the grader, and carrying on salt and sand operations. The number of roads receiving salt is increasing as the demand requires it. Special attention is given school bus routes and the area where children are required to walk in the road to school. Three 60 ton car loads of salt were purchased in 1963 at a savings of \$2,100.00 over our old method (bag salt) used with our other town barn.

Our other main project in the winter is brush and tree trimming throughout the town. Heavy concentrations of brush are more economically taken care of in the winter because it is possible to burn the brush where it is cut eliminating costly hauling to dump areas.

A new blade plow was purchased for the grader with monies earned from grader rental; the cost - \$895.00.

A breakdown of Winter Maintenance expense is: labor, 12 men, 1 foreman \$4,586.01; hired equipment, 9 trucks, 5 tractors, 1 loader \$7,851.89; salt, sand, supplies, repairs, 1 new snow plow \$7,307.58.

2. Summer Maintenance \$9,003.07. This program includes grading and York raking 40 gravel roads several times, cutting banks and ditches, spot graveling, replacing culverts, setting posts and signs. Also included in the program is the maintenance of shoulders, etc. on all our black roads and the cutting of brush on all roads.

Gravel was applied to 9 areas in town during the

spring because of mud problems and later in the year these areas were covered again; the largest amount going to the School House Road (350 yds.). Five new culverts were installed and one repaired during the summer. Brush was cut by machine on about 30 miles of road and hand cut with chain saw in eight different areas.

3. Oiling \$10,595.92. Under this program approximately 12 miles of road were surface treated and about two miles of road received a heavy spray patch coat before being re-oiled at a cost of \$7,967.23. Included in this part of the project was the oiling of Woodland Drive which was paid for in full by the developer. Also included is the patching of all black roads (40 miles) and sweeping of roads to be re-oiled at a cost of \$2,628.69. A program of applying crank-case oil to gravel roads where dust is a problem has also been accomplished under this account. It is hoped this can continue.

4. T.R.A. Under this project money was spent for a sealer coat on the following roads: Brook Road, Mack Hill Road, North Street, Cricket Cor. Road, Old Milford Road, Austin Road and Court House Road. A new four year program was started and money spent on Lyndeborough Road, Veterans' Road, Dodge Road, and Mack Hill Road. The Brook Road, and Souhegan Ave. are to come under this program, but as yet land easements have not been acquired. Cost in 1963 for this work was \$9,800.00.

Article 7. The money for this article was spent cutting banks on the Christian Hill Road at the corner of Eaton Road, the corner by Frank Martin's and a corner at the foot of Chestnut Hill. Cost of this work \$1,008.93.

Article 15. Money for this was spent to widen out and apply 1,114 yds. of gravel to Truell Road.

7. Dumps. Money for this department was spent

to close the Baboosic Lake Dump (cost \$250.00) and to maintain the town dump. It is hoped we can better care for this area now that we have consolidated.

8. Cemeteries. Money for this account was spent to maintain the four cemeteries; Meadow View, the old Cemetery by the the Town Hall, Cricket Corner Cemetery and Chestnut Hill Cemetery. Some of the projects accomplished this year other than the regular maintenance of all cemeteries were: 1. rebuilding and painting the fence around the Cricket Corner Cemetery and the installation of a new hand water pump. 2. the straightening and resetting in concrete bases of about 50 head stones at the Chestnut Hill Cemetery. 3. in Meadowview all large trees were trimmed by Bartlett Tree Men and three removed. Spot grading and the rebuilding of several lots was also done. There were seventeen burials and two entombments in 1963 all in Meadowview Cemetery.

Again we were able to rent the grader at various times during the year. The purchase of two tires, payment for repairs, and the purchase of a new snow plow were accomplished with these funds in 1963. To date there has been \$6,500.00 added to the grader fund for future replacement of the present machine.

Respectfully submitted,  
RICHARD G. CROCKER,  
Highway Agent.

### REPORT OF POLICE CHIEF

Arrests including motor vehicle violations	10
Stolen Property	7
Warnings, including D.E. tags, juvenile, returning children home	119
Complaints of various nature, disturbances, prowlers, breaking and entering, etc.	131

Accidents	32	Fires: Residence	12
Complaints	68	Brush	15
Mutual Aid	7	Car	2
Drowning	1	Business	3

Grand total of transactions 2310 calls

This department has had a busy year, having been called on for assistance of various types during 1963 and rendering aid to our neighbors in adjoining towns by assisting on traffic duty at several fires. Our department would like to express their appreciation for the assistance and fine cooperation received in 1963, to all members of the State Police serving our area, to Chief Rockwell and members of the Milford Police Department, also to the faithful operators at the Milford Communications Center, which has been most appreciated on numerous occasions.

The work load is increasing at the Center, as can be seen by comparing the calls made in 1963 against those in 1962 for its past year of operation.

Our traffic load continues to increase each year, and it is hoped that the Amherst-Milford by-pass will be in operation before 1969, as was outlined to us at the public meeting held in the Amherst Town Hall by Mr. Whittaker of the New Hampshire Public Works Department.

Baboosic Lake has continued to have record crowds on weekends, enjoying the recreational facilities, also during the summer vacation period.

One mobile 2-way set was purchased and installed in one of the officer's cars, replacing the one that became obsolete by F.C.C. regulations. It is planned to secure two more sets this year which will give our Department a total of four mobile sets and a base station located at the Fire Station.

I would like again to thank the Selectmen and all members of the Amherst Police Department for their cooperation and help in keeping Amherst free from any highway fatality during 1963, and it is my sincere hope that the users of our highways will make 1964 a safer year by being careful and courteous.

Respectfully submitted,

ALBERT H. JUNKINS,

Police Chief.

## AMHERST FIRE DEPARTMENT REPORT

The following is a brief summarized report of the department's activities and expenditures during the past year.

1. Salaries — 40 men at \$25.00 year. This is payment for men attending 12 regular meetings and at least 12 practice sessions by engine companies. 1 Fire Chief at \$100.00., 2 Assistants at \$15.00 each and 1 Janitor at \$177.00.

2. Fires. Your department responded to 85 alarms during 1963 as compared to 51 in 1962.

Types of calls were:

Car fires	4
Chimney	5
Defective wiring	1
Grass and brush	17
Incinerator	2
Dump	22
House	3
Flooded oil burners	2
Accidents	2
Mutual Aid	15
(Out of Town)	
Mutual Aid called in	9
Miscellaneous	12
(brush piles, smoke checking, slab piles, overheated furnace, etc.)	

Engine 1 responded to 49 fires

Engine 2 responded to 49 fires

Engine 3 responded to 60 fires

The total cost of fires was \$2,822.36.

3. The department purchased 500 feet of 2½ inch hose and 150 feet of 1 inch booster line at a cost of \$750.00.

4. Water Holes. 1. The water hole on Route 122 by the Ponemah Hill Road was dug out and refenced. 2. The water hole on the Austin Road in Noble's pasture was dug out. 3. The water hole above Albees' on the Christian Hill Road was dug out and refenced. 4. The water hole at the corner of Green Road and Mont Vernon Road was dug out and fenced. A new water hole was dug on the New Boston Road on the Knight property at no cost to the town. Total cost of the water hole program was \$625.95.

5. Supplies and Equipment. Under this program were purchased miscellaneous items such as tools, hand lights, helmets, boots, coats, three nozzles, foam and foam generator, canvas covers for hose beds, two beacon ray lights and supplies for the fire station. The total cost of this program came to \$1,248.32.

6. Special Projects. The main item under this department was the changeover of all radio equipment to conform with the regulations set by the Federal Communication Commission. A new radio room was built and radios serving the Fire, Police and Forestry Departments were set up in the area to make these operations more efficient. The cost of this project was \$1,102.39.

7. Fire Alarm. In addition to regular maintenance of the fire alarm system it was necessary to replace the compressor and old tanks that have been in use for many years. Also the piping to the horns in the tower was replaced and a new horn added to increase the range of the alarm.

The Department has taken an active part in the Souhegan Valley Mutual Aid Program and finds it of

tremendous value to our town. It is possible for Amherst to call for assistance from 17 towns at no cost.

In conjunction with our radio room a card file and property map has been established to facilitate the prompt location of fires. We want to stress the importance of giving the correct property owner's name and street name when reporting a fire.

In closing this report we would like to express our thanks to the officers and members of the three engine companies for the time and effort put forth to accomplish the work of the department. We would also like to acknowledge the many hours Forrest "Pete" Peterson gave in the construction and operation of our radio room.

Respectfully submitted,  
CHARLES DUVAL, Chief

CARL MERRILL,  
First Assistant

### **Report of the Forest Fire Warden and Your District Chief**

During the past year New Hampshire faced the greatest forest fire threat to its woodlands in more than sixty years. The continued drought brought home to our citizens, as never before, the potential threat of destructive fires to their beautiful and valuable forests, homes and livelihood. In true American tradition of meeting a common threat by volunteer effort, this fire danger was minimized by active prevention, patrol and a relinquishing of personnel rights for the common

good. It was the greatest demonstration of public co-operation ever experienced by those responsible for local and state fire control. The ready forces of volunteer fire services kept the losses low. For their effort and public response the general fire service expresses its heartfelt thanks for a job well done.

Prevention however, is not just an activity for the bad fire years. It must be practiced until it becomes a part of our public conscience — a habit. Just plain carelessness with fire causes too many of our fires.

The following practices and suggestions will help:

1. Always have a permit for outdoor burning and burn within the terms of the permit and in a safe place. Burn late in the afternoon when the wind is down or on rainy or damp days. Check your fire and if winds develop extinguish it promptly.

2. Carry your rubbish to the public dump — it's safer. A neglected backyard incinerator causes many fires.

3. Never discard lighted cigarette or match. Make this a year round habit regardless of the safety of your surroundings.

4. Children caused fires are now a major concern. Keep matches away from them and teach them to respect fire and not make it a subject of play.

Let's all join with "Smokey the Bear" and "Keep New Hampshire Green" and growing in 1964.

Number of fires and burned area in 1963:

	Fires	Area-Acres
State	873	2117
District	223	138 $\frac{1}{4}$
Town	17	5 $\frac{1}{2}$

CHARLES DUVAL, Warden

WINTHROP H. HANNAFORD,  
District Chief

## REPORT OF CEMETERY TRUSTEES — 1963

Major expenses in 1963:

Area in front of vault hard surfaced.

Three large trees were removed and all trees in cemeteries were trimmed.

Sixty monuments were reset on concrete bases in Chestnut Hill Cemetery.

Fence at Cricket Corner Cemetery was rebuilt and repainted.

Fifteen lots were rebuilt with markers and posts reset level with ground.

Metal racks were installed in vault.

Lots sold: 2.

Major project for 1964:

Clear new section and have it filled to proper level. Plant evergreen shrub fence to screen back and along side of road, to make this section look satisfactory.

Special cemetery fund was increased \$746.54 to \$1,970.85.

Respectfully submitted,

EDWARD A. CONTI,  
DEWEY W. SMITH,  
CLARENCE H. HAGAR,  
Cemetery Trustees

# STATEMENT OF COMMON TRUST FUND PRINCIPAL AND UNEXPENDED INCOME

As at December 31, 1963

## PRINCIPAL

<b>Assets:</b>	
Uninvested cash	\$ 66 92
<b>Investments:</b>	
Mutual funds (\$59,602.67 at market value)	\$34,451 90
Savings banks	68,052 66
	----- 102,504 56
<b>Total Assets</b>	<b>\$102,571 48</b>

## Fund principal balances:

Library	\$15,347 72
Highway	2,115 80
School	15,339 59
Cemetery	69,768 37
<b>Total Funds</b>	<b>----- \$102,571 48</b>

## UNEXPENDED INCOME

<b>Assets:</b>	
Cash in checking account	\$ 2,095 91
<b>Investments:</b>	
Mutual fund (\$5,232.81 at market value)	\$2,435 82
Savings bank	7,551 66
	----- 9,987 48
<b>Total Assets</b>	<b>\$12,083 39</b>

## Balance of unexpended income:

Library Fund	\$ 669 56
Highway Fund	96 10
School Fund	696 74
Cemetery Fund	10,620 99
<b>Total Unexpended Income</b>	<b>----- \$12,083 39</b>

Statement of Common Trust Fund Principal and Unexpended Income states in summary form that which appears in detail in the Report of the Trust Funds of the Town of Amherst and in the Report of the Common Trust Fund Investments of the Town of Amherst. The Report of the Trust Funds of the Town of Amherst also contains a statement of Separately Invested Funds.

The market value of Common Trust Fund Investments increased in the amount of ten thousand five hundred eleven dollars and forty-six cents (\$10,511.46) during 1963. This is an increase of 19.35% which is accounted for, primarily because security prices generally advanced and also because of the Trustees policy of reinvesting capital gain distributions.

The average yield on Common Trust Fund Investments was 4.57% based on invested cost at the beginning of the year. Of this the mutual fund investments yielded 4.87% and savings bank accounts yielded 4.43%.

At the year end Common Trust Fund Investments at market values were invested 46% in equity securities and 54% in savings bank deposits.

The balances of Unexpended Income of all funds, except the Cemetery Funds, were distributed during January 1964 in accordance with the respective designated purposes. These sums were equal to the 1963 investment income. The Unexpended Income of the Cemetery Funds will be used during 1964, to the extent required, for the maintenance of the town cemeteries.

Respectfully submitted,

EDWARD A. CONTI,  
CHESTER B. McGRATH,  
DAVID T. RAMSAY,

Trustees of Trust Funds.

## TREE COMMITTEE REPORT

During 1963, the program of spraying, pruning and removal of village trees was continued, together with the planting of new trees and shrubs. Losses from Dutch Elm disease within the village were relatively light compared to previous years. But this does not signify that the disease is abating or that the spraying program may be relaxed. Indeed some 35 trees on private property throughout the town were reported as diseased — an indirect testimony to the benefits of spraying to preserve our large old elms.

Young maples and oaks, together with flowering shrubs and evergreens were set out at several locations. This portion of the program is now starting to reap a reward as previous plantings begin to cast a shade or beautify the commons with their lovely flowers. The prolonged drought last Fall was hard on these new plantings, but it is felt that only a few will have to be replaced.

All residents are again urged to replace trees lost from storm or disease, and to start other new ones. Their growth is a source of personal satisfaction as well as a dividend in beauty and increased property value.

Respectfully submitted,

ROBERT W. SEAMANS,  
CREELEY S. BUCHANAN,  
F. TENNEY CLOUGH,  
Chairman

January 12, 1964

## BUDGET — 1964

<i>Spraying</i>	\$425.00
A. Dormant Spray — April Elm Trees in Village	
B. Cover Spray — May Elm Trees in Village and Ponemah	
<i>Planting</i> — 15 - 20 Young Trees in Village Includes preparing ground, stock, mulching, and watering	450.00
<i>General Tree Work</i> — All Town Trees and Trees bordering streets in Village — pruning, limited selective feeding	450.00
<i>Tree Removal</i> — Cutting, removing and dis- posing of Village Elm Trees with Dutch Elm Disease and dead Maples. Removing cut-down diseased elm trees on private property.	675.00
	-----
	\$2,000.00

January 14, 1964

## REPORT OF THE ADMINISTRATIVE OFFICIAL

With all the talk of the "growth of Amherst" it is only natural that this report should show an increase in the processing of permit requests. A total of 130 applications were received and processed, broken down as follows:

1. New Private Housing	56
2. Additions or Alterations	20
3. Parking Garages	12
4. Trailers	8
5. Signs	11
6. Utility Out Buildings	8
7. Non-Residential Structures	9
8. Miscellaneous	6

Of these it was necessary to deny 16 requests as not allowed by the provisions of the zoning ordinance.

Since a monthly report is requested to be filed with the Bureau of Census, each applicant is requested to file an estimated building cost of each project. It is interesting to note the following figures representing estimated costs:

New Housing	\$903,650
Addition and Alteration	60,750
Non-Residential	76,050
Garages	11,075

No attempt is made to record the number of requests that are made to explain or attempt to interpret the ordinance or the calls made for infractions which is a necessary part of this position. I have to thank everyone for their cooperation and understanding in making this a workable ordinance which can ultimately only make Amherst a better town in which to live.

CHARLES KENNEDY

## **REPORT OF BOARD OF ADJUSTMENT**

The Board of Adjustment held 15 Public Hearings on appeals for special exceptions and variances.

Decisions were as follows:

- 12 Granted
- 2 Compromise plans granted
- 1 Denied
- 1 Variance granted under the old ordinance.

Hearings were held as required by the Zoning Ordinance.

Recommendations as to revisions of the Zoning Ordinance have been submitted to the Planning Board in an effort to expedite the procedure of the Zoning Board.

## **BOARD OF ADJUSTMENT**

### **REPORT OF THE ZONING BOARD OF ADJUSTMENT**

Raymond Busceme: Permit granted to bake bakery products, under new ordinance.

Mr. and Mrs. Norman Hall: Variance granted to divide lot of land.

Herbert W. Wenzel: Permit granted to build addition to pavilion. Variance.

Mr. and Mrs. Philip Holmes: 5 year extension of present permit. Granted.

Mr. Charles Nute: Variance granted to build porch on home located lakeside district.

Mrs. Cecilia Monson: Exception granted to convert restaurant to professional offices.

Lloyd and Grace Snow: Permit granted (variance) to build a tool shed.

Andre Cadorette: Variance granted to expand existing 28 mobile home units to a total of 40 units.

Harold and Bertha Copp: Variance granted to build a garage.

Fred Vatcher: Variance granted to locate mobile home, with restrictions.

Moulton & Sons, Inc.: Granted continuation of a non-conforming use, with no external display of merchandise.

Nashua Airport Authority: Application granted to erect a radio beacon on property, Stearns and Veterans Road.

Alfred and Violette Hamelin: Application does not meet with the requirements of the Zoning Ordinance. Variance is denied.

Robert H. Carrier: Special exception is granted as a permitted use to construct a nine-hole golf course and clubhouse building.

Horace Greeley Restaurant: Special exception granted to build a 16 x 22 foot addition to be an entrance foyer. Application for special exception to build a 40 foot by 60 foot addition to be used as a cocktail lounge was denied as this is not a permitted use by special exception in the rural district.

## ANNUAL REPORT OF THE TRUSTEES OF THE AMHERST TOWN LIBRARY

In compliance with New Hampshire Revised Statutes Annotated (202:10 and 202:11) we give our annual report of the trustees:

Financial Report — The report of our Treasurer is appended hereto.

Buildings and Grounds — New fluorescent light fixtures were installed in the balance of the rooms on the first floor of the library; also in the three book alleys on the second floor of the library.

The wooden floors on the first floor of the library were refinished.

Loam and fertilizer were purchased to cover and improve the library lawn so that it could be seeded (on the street side).

Shrubs for this section of the lawn were purchased through money raised by the coffee get-together at the home of Mrs. Allen Carlsmith.

Book slot has been installed in the front door of the library and has proven to be successful.

New receiving desk and high swivel chair were purchased and book cart refinished for the librarian.

Library fence — in need of repair and repainting. Nothing was done on this as the Library Trustees felt it was too expensive. It was felt by the Library Trustees that the Town should approve or reject this project.

Gifts and Bequests — The Library Trustees acknowledge with thanks a further gift of \$500 from Mrs. Frederick W. Mosher.

The Trustees of the Amherst Town Library wish at this time to express their thanks to Mrs. Walter D. Carr for repairing and refinishing the wall clock inside the library building.

A Book Selection Committee was appointed within the past year. They have done a wonderful job

in suggesting books to the Library Trustees for purchase. The Library Trustees express their thanks to them for doing such a grand job.

There will be six members on this committee. Two members are to retire each year. New appointments are to be made by the Library Trustees each year in June.

The Book Selection Committee is as follows:

One year — Mr. Leonard Hall  
Mrs. Creeley Buchanan

Two years — Mrs. Arthur Foote  
Mrs. Richard Morse

Three years — Mrs. James Montgomery  
Mrs. Charles Ware

The Trustees of the Amherst Town Library wish to thank the many friends of the library who donated their time for cataloguing books, typing reports, and who assisted in the children's group.

Respectfully submitted,

ELIZABETH G. HALL, Chairman  
BENJAMIN G. BUNDY  
DOROTHY CARLSMITH  
HOWARD L. HUSMER  
HARRIET MITIGUY  
HAROLD E. MORRIS, Secretary

## AMHERST TOWN LIBRARY

### Librarian's Report

1963 has been a most successful and progressive year. We have continued our rate of expansion with the circulation increasing from 16,987 in 1962 to 18,412 this past year and we feel that we have managed to

keep up with our fast growing town. We are gradually improving our library with the addition of a book slot, new lights, and in the near future we hope to have a new charging desk in the main room to greet you as you enter. We hope that in 1964 you will see new and better equipment to enable the children to study more comfortably and with more efficiency.

Book circulation figures for the year are as follows:

Adult fiction	5500	Juvenile fiction	7148
Adult non-fiction	1937	Juvenile non-fiction	2641
Magazines	1186		----
	----		9789
	8623		

Grand Total 18,412

Books added to our collection during the year total 375. Of these, 115 adult fiction, 91 adult non-fiction, 100 juvenile fiction and 69 juvenile non-fiction. We subscribe to 24 magazines. The magazine list has been revised this year and it is hoped that people will find them more useful and more enjoyable to read.

A sincere thank-you to the following people for their gifts of money, books and magazines:

Mrs. Frederick W. Mosher, Mrs. Creeley S. Buchanan, Mrs. Elizabeth N. Bean, Mr. Henry Merrill, Charles Sandford, Mrs. Charles Ware, Mrs. Marion Wilcox, Mrs. Jean Chase, Mrs. Donald Grant, Mary Mitiguy, Mrs. Carl Graesser, Mrs. Robert Seamans, Martha Gray and Mr. and Mrs. Philip B. Holmes, a book in memory of Ernest "Sam" Warren.

I wish to thank all those who have volunteered their services to the librarians in helping us with our many duties.

This report would not be complete without the mention of the book selection committee which was formed several months ago. Their helpfulness in making suggestions for purchase of new books has been

greatly appreciated and I hope that this new venture will continue.

May I take this opportunity to thank the trustees for the cooperation they have given to me during the year.

Respectfully submitted,  
MARION U. NELSON

## AUDITORS' REPORT

We have examined the accounts of the following Town Officers: Selectmen, Town Clerk, Town Treasurer, Tax Collector, Road Agent, Trustees of Trust Funds, Treasurer of Library, Clerk of Police Court, and find them correct to the best of our knowledge and belief.

ORSON H. BRAGDON,  
HOWARD L. HUSMER,  
Town Auditors

## REPORT OF PLANNING BOARD

Your Planning Board has worked on two distinct types of community problems since the last Town Meeting. One involved developing needed amendments to the new zoning ordinance. The other — preliminary study of some of the community's longer-range problems.

The zoning ordinance passed at the 1963 Town Meeting has already demonstrated its effectiveness as a tool in shaping community development along the lines desired by a majority of the citizens. None the less, experience in administering the ordinance has uncovered sections that need revision. Several articles in this year's town warrant are aimed at accomplishing these revisions. Other needed changes are currently under study.

Amherst faces many other problems requiring careful study. Among these are: (1) the need for community recreational facilities; (2) regulation of subdivisions, and (3) the possibility of expanding the tax base through planned industrial development. Preliminary work has only begun on these problems, but we expect to devote a major portion of our time to them during 1964.

MERIC G. ARNOLD  
ROBERT H. CURRIER  
ROBERT S. HALL  
PAUL L. LEVESQUE  
HARRY R. MITIGUY  
RICHARD A. SMITH  
DEWEY W. SMITH

## ROAD COMMISSION REPORT

The Road Commission has carefully considered each item of the budget preparation for the Highway Department before its presentation to other committees and groups.

We feel it represents, as much as possible, a "hold the line" cost of operation.

Our Winter Maintenance costs represent the only area that a continued trend of increase prevails. This is brought about however, by the severity of recent winters, the added roads being serviced and the greater services that have been demanded on the Highway Department. Savings enjoyed on the purchase of salt, now permitted by the storage area of the Town Barn, have greatly helped in keeping this figure to its present level.

Comparison of other budget items is most revealing and interesting.

Parks and Playgrounds expense has been kept to the same figure for many years despite added areas in the town which are now presently maintained.

The creation of a new Dump area and the commencement of a program of clearing and enlarging same to minimize fire hazard is being handled within the same budget request as previously asked.

Increases in Summer Maintenance and Oiling figures represent only the minimum costs resulting from more area being serviced. A total of eleven new streets have been added within the past three-year period.

Several savings have been effected by the ability to perform general repairs, preparation of horses and sundry other department items within the facilities afforded by the new Town Barn.

The need of an additional piece of town equipment was considered and explored with no recommendation of same at this present time.

Proposed road programs tentatively scheduled for this year were effectively carried out.

In the 1961 Report, we pointed out that many meetings were held by this group with builders, contractors, developers and the Selectmen. We reviewed road specification requirements for the acceptance of new roads. We considered the economic effect the Town might experience if a surge in building and development should take place.

The activity along these lines, that has ensued since then has exceeded most everyone's anticipation.

Maintenance, alone, of these added roads and streets will increase the needs of the Highway Budget.

We therefore urge the passage of Article No. 20 in reference to this problem.

FRED VATCHER,  
RUFUS BROWN,  
GEORGE HAMMOND, JR.,  
Chairman

## SELECTMEN'S REPORT

In preparing this report, we find ourselves at the point where we must look back over the past year at our accomplishments and ahead to the future in the light of what has taken place.

Since one of our primary responsibilities to the people of Amherst is equitable assessment of the Town for tax purposes, many hours were spent in reassessing the homes which have not changed hands in the past several years. All tax assessment information has been incorporated in a wholly new system of cards made possible by the recent purchase of the addressograph, making the beginnings of an efficient tax record of all property in town. To properly round out the reassessment program, we feel that it is essential to obtain a tax map. This will enable us to locate and define every single parcel of land within the town. Without such a map the task of equalizing land assessment is insurmountable.

With our great increase in dwellings, roads and numbers of residents our Town services have become, and will continue to become, more and more expensive. It is readily apparent that if this increased cost of doing business is to fall on the shoulders of the homeowner our tax rate will become prohibitive. With this possibility in mind, we have concerned ourselves with the broadening of the Town's tax base and have spent considerable time attempting to attract non-dwelling tax income.

Accordingly when the opportunity presented itself through contacts of our Town Counsel to have an industrial park located in Amherst, we seized upon it. We have spent much time in discussion with these people and a preliminary agreement has been negotiated which will result in building of substantial tax-

able industrial property. We sincerely hope that this will have your approval and support.

The past year has seen Amherst suffer a marked increase in cases falling under Old Age Assistance and Town Poor. Thanks to the time and energy expended in thorough investigation by one of our members as Overseer of the Poor, in many instances, considerable money has been saved. However, it is well to note that many of our older citizens are ineligible for sufficient Social Security benefits and that the trend towards more Old Age Assistance to these people will undoubtedly continue in the immediate future.

We are sure you will note with approval our continuing program of upkeep of the Town Hall. With the exception of the Selectmen's Room, the entire first floor was repainted. It is apparent that the flooring in the downstairs hallway needs immediate attention and we are also at the end of the allowable time for the fire-proofing of the stage curtains. Both these projects are to be undertaken early this year along with some needed additional painting. We are aware of the poor condition of the window curtains throughout the building which have been up over ten years. We hope to have sufficient funds this year to undertake at least partial replacement.

We would be remiss in closing if we did not mention our appreciation for the cooperation we have had from the heads of the Town Departments, most particularly the Town Clerk and the Tax Collector who, as our secretary, keeps the detail work done so efficiently. It has been an interesting and most productive year for us and we hope for the Town.

We note with regret that Harold Aldrich is leaving the service of the Town of Amherst. He has been a member of the Police Department for 15 years and will be missed by the townspeople.

## AMHERST VILLAGE DISTRICT WARRANT

### The State of New Hampshire

To the Inhabitants of the Town of Amherst in the  
County of Hillsborough in said State, qualified  
to vote in District Affairs:

You are hereby notified to meet at the Town Hall  
in said Amherst on Friday the 13th of March next, at  
eight o'clock in the afternoon, to act upon the follow-  
ing subjects:

1. To choose all necessary District Officers for the  
ensuing year.
2. To raise such sums of money as may be neces-  
sary to defray town charges for the ensuing year and  
make appropriations of the same.
3. To transact any other business which may le-  
gally come before said meeting.

Given under our hand and seal this 17th day of  
February, in the year of our Lord nineteen hundred  
and sixty-four.

RUFUS I. BROWN,  
CREELEY S. BUCHANAN,  
ERIK BROWN,  
Commissioners of the Amherst Village District

A true copy of Warrant — Attest:

RUFUS I. BROWN,  
CREELEY S. BUCHANAN,  
ERIK BROWN,  
Commissioners of the Amherst Village District  
RANDOLPH KRUGER, Clerk

## AMHERST VILLAGE DISTRICT

Your Commissioners are pleased to report that the District is now providing water to 182 users.

Repayment of another \$6,000.00 in principal has reduced the District indebtedness to \$89,000.00. Adequate reserves are being built up to provide for regular painting of the Standpipe and other major maintenance.

Our special thanks to Admiral William C. Vose for his faithfulness in taking samples of water to Concord for tests.

RUFUS I. BROWN,  
CREELEY S. BUCHANAN,  
ERIK BROWN,

Commissioners

## AUDITORS' REPORT

We have examined the foregoing accounts and find them correctly cast and properly vouched for.

ORSON H. BRAGDON,  
HOWARD L. HUSMER,  
Town Auditors

## SYNOPSIS OF AMHERST TOWN MEETING March 12, 1963

Acting under The Warrant for Town Meeting, polls opened at 1:00 P. M. by the Moderator, A. M. Wight, Jr.

Election of officers: A. M. Wight, Jr., Moderator; Catherine A. Kruger, Town Clerk; Supervisors of the checklists, Harold H. Wilkins, Phyllis Hill and Beatrice Montgomery; ballot clerks, Lillian Anderson and Dorothy Husmer; assistants to the voters, Allen D. Howard and Randolph Kruger.

Business meeting was called at 8:00 P. M. Mention was made of posting of Warrant at Town Hall, Post Office, Moulton store, as well as Claire's and So. Merrimack General Store.

Invocation by Mr. Harold H. Wilkins, Sr.; also a moment of silent prayer in memory of Rae Comerford, who passed away March 28th, 1962.

Acting under Article 1 of the Town Warrant, the following officers were elected: Francis E. Whaland, Selectman for three years; Catherine A. Kruger, Town Clerk and Treasurer; Barbara H. Landry, Tax Collector; Richard G. Crocker, Road Agent; Orson H. Bragdon and Howard L. Husmer, Auditors; Albert H. Junkins, Constable; Chester B. McGrath, Trustee of Trust Funds for three years; Harriet S. Mitiguy and Harold W. Morris, Library Trustees for three years; Howard F. Russell, Board of Adjustment, five years; and Richard H. Thurston, Board of Adjustment for four years.

Acting under Article 2 as printed on the ballot: "To repeal the Amherst Zoning Ordinance enacted March 12, 1946, as amended, and to adopt the Town of Amherst Zoning Ordinance of 1963." — 252 voted "Yes," 200 voted "No," and there were 13 void votes.

Article 3 — It was moved and voted to authorize the selectmen and treasurer to borrow money in anticipation of taxes, if necessary, as provided by law of 1907.

Article 4 — It was moved and voted to allow a discount of 1½% on the 1963 property taxes if paid in accordance with this article as printed.

Article 5 — It was moved and voted that no money be raised to purchase advertising in the Merrimack Valley Region Guide.

Article 6 — It was moved and voted to raise and appropriate the sum of \$94,415.24 with the exclusion of several items to be acted upon separately in the Warrant.

Article 7 — Moved and voted to raise the sum of \$1,000. to continue the plan started in 1948 for road improvement.

Article 8 — Moved and voted to raise and appropriate the sum of \$300., increase in Town Treasurer's salary.

Article 9 — Moved and voted to raise and appropriate the sum of \$150. to defray the town's share in the White Pine Blister Rust Control.

Article 10 — Moved and voted to abolish the office of Constable as an elective officer and allow selectmen to appoint the Constable to operate under their direction.

Article 11 — Moved and seconded to raise and appropriate \$8,000. for the purpose of having State Tax Commission reassess the Town. This motion was defeated by showing of hands, 92 persons voting "Yes," 114 voting "No."

Article 12 — Moved and voted to raise and appropriate the sum of \$500. to start the rehabilitation of the Village Common as recommended by the Tree Committee.

Article 13 — Moved and voted to give Selectmen authority to sell a certain piece of land across from Cricket Corner Cemetery.

Article 14 — On recommendation of the Ways and Means Committee the following roads were accepted as Town Roads:

Woodland Drive by Maurice Young  
Pinewood Drive by Robert Currier  
Beaver Brook Circle by Joseph Eaton  
Town Crier Road by Arnold Schumacher  
Cricket Hill Drive by Turner and Schumacher

Moved by Mr. F. Tenney Clough and it was voted to put into the

record that all roads covered by this article are accepted only insofar as they have been presently developed.

Article 15—Mr. Dewey Smith, selectman, read a resolution and agreement with persons living on Truell Road. Moved and voted to raise and appropriate the sum of \$1,200. to be repaid by special assessment against abutting property owners on Truell Road and when expended to bring Truell Road up to minimum specifications for town roads.

Article 16—Moved and voted to raise and appropriate the sum of \$300., for continuing a program of purchasing and having erected suitable street name signs, and commenced by passage of Article 19, Town Meeting, March 13, 1962.

Article 17—Moved and voted to raise and appropriate the sum of \$200. for expenses incurred by the Planning Board in the performance of its duties, which expenses shall include the printing of the Revised Zoning Ordinance, if adopted, together with the reproduction of the zoning map.

Article 18—Moved and voted that the recommendation of the Ways and Means Committee be accepted, "More study by a committee of three appointed by the Moderator and that a report be made at the next annual Town Meeting." Mrs. Cynthia Lathrop explained that this article was put into the Warrant at the request of the School Board.

Article 19—Under New Business, Judge Charles Lincoln moved that the town vote to authorize the fire wards and fire chief to take two pieces of apparatus out of town in response to requests for assistance in fire emergencies from other towns and to authorize the fire wards and fire chief to request and accept assistance from the fire departments of other towns under mutual aid system. Mr. Louis Heaton suggested that each town should hold the other towns harmless.

Mr. Hermon Anderson spoke of the sorrow of the Selectmen over the death of Mr. Rae Comerford, also of the appreciation of the help given by Mr. Rufus Brown over the past year and asked for a rising vote of thanks.

A rising vote of thanks was given to the Ways and Means Committee for time and effort given to the town.

Mrs. Dorothy Davis asked that the Selectmen arrange a hearing for the Public before Town Meeting, at about the time the Warrant is being prepared.

Meeting adjourned 11:05 P. M.

At the close of the meeting newly-elected officers took their oath of office.

CATHERINE A. KRUGER, Town Clerk

Vital Statistics of a Town are one of its most important records, not merely for today, but for generations to come. If everyone would see to it that the records of their own families were fully and correctly filled out for Marriage, Birth and Death certificates, it might be of great help in making out the records of today.

I hereby certify that the foregoing returns are correct according to the best of my knowledge.

CATHERINE A. KRUGER, Town Clerk

## WARRANT FOR ANNUAL SCHOOL MEETING

### State of New Hampshire

To the Inhabitants of the School district in the town of Amherst qualified to vote in district affairs:

You are hereby notified to meet at the Town Hall in said district on the sixth day of March 1964, at 3:30 o'clock in the afternoon to act upon the following subjects:

1. To choose a Moderator for the coming year.
2. To choose a Clerk for the ensuing year.
3. To choose a Member of the School Board for the ensuing three years, and a member for the ensuing one year.
4. To choose a Treasurer for the ensuing year.
5. To determine and appoint the salaries of the School Board and Truant Officer, and fix the compensation of any other officers or agent of the district.
6. To hear the reports of Agents, Auditors, Committees, or Officers chosen, and pass any vote relating thereto.
7. To choose Agents, Auditors and Committees in relation to any subject embraced in this warrant.

8. To see what sum of money the district will raise and appropriate for the support of schools, for the salaries of school district officials and agents, and for the payment of statutory obligations of the district, and to authorize the application against said appropriation of such sums as are estimated to be received from the state foundation aid fund together with other income; the school board to certify to the selectmen the balance between the estimated revenue and the appropriation, which balance is to be raised by taxes by the town.

9. To see if the district will authorize the school board to make application for and to receive in the name of the district, such advances, grants in aid or other funds for education purposes, as may now, or hereafter be forthcoming from the United States Government or any state or private agency.

10. To see if the district will authorize school boards to negotiate transportation contracts that will cover a period not exceeding three years.

11. To see if the district will vote to raise and appropriate the sum of \$5,522.00 to provide grading and a fence at Spalding field and a fence and paving at the Clark School. If appropriated this year, the State will reimburse Amherst thirty per cent of this sum.

12. To see if the district will vote to provide school bus transportation to all pupils living more than  $1\frac{1}{2}$  (one and one half) miles from school and appropriate an additional sum of \$2,000.00 for said purpose or to take any action relative thereto.

13. To transact any other business which may legally come before said meeting.

Given under our hands at said Amherst this 14th day of February 1964.

## NOTIFICATION OF SCHOOL ASSESSMENT, 1963

### EXPENDITURES

Current Expenditures	\$242,586 44
Capital Outlay:	
New Equipment	900 00
Debt and Interest	6,046 86
	<hr/>
Total Appropriation	\$249,533 30

### RECEIPTS

Balance, June 30, 1963 — Less Liabilities	\$ 5,146 37
Federal Aid (Estimate)	2,000 00
State Aid	2,345 60
Tuition (Estimate)	3,500 00
Trust Funds (Estimate)	500 00
Assessment required to meet	
School District Appropriation	\$236,041 33
	<hr/>
Total Appropriation	\$249,533 30

Authorization to issue notes or bonds.

Purpose for which notes or bonds were voted.

Date Voted

March 8, 1963    Clark School Addition    \$61,000 00

I certify that the above is a correct statement of the obligations authorized, and the amounts to be assessed to meet the statutory requirements and appropriations made at the annual meeting of the School District of Amherst held March 8, 1963.

BARBARA H. LANDRY,  
Clerk.

## REPORT OF THE TREASURER

(For the Fiscal Year July 1, 1962 to June 30, 1963)  
BARBARA H. LANDRY, Treasurer,

In account with the School District of Amherst.

Dr.

Cash on Hand July 1, 1962	\$	4 63
Board of Selectmen:		
Current Appropriation as of March 1962	218,817	12
State Sources	1,655	90

Tuition	3,466	64
Trust Funds	613	86
Other Income	253	50
		<hr/>
Total Receipts	\$227,763	35

Cr.

Payments on order of School Board	\$222,616	98
Balance on Hand June 30, 1963		
(Treasurer's Bank Balance)	5,146	37

Dr.

Building Fund:		
Bond Issue	\$61,000	00
Transferred General Fund	850	00
		<hr/>
Total	\$61,850	00
Balance on Hand June 30, 1963		
(Treasurer's Bank Balance)	\$61,850	00

## AUDITORS' CERTIFICATE

(Required by the State Board of Education from all  
State Aided Districts)

This is to certify that we have examined the books, vouchers, bank statements, and other financial records of the treasurer of the School District of Amherst, of which the above is a true summary for the fiscal year ending June 30, 1963, and find them correct in all respects.

ORSON H. BRAGDON,  
HOWARD L. HUSMER,  
Auditors.

## SCHOOL BOARD REPORT

A double obligation constantly faces a school board as it discharges its responsibilities, renders decisions and sets policies: first, to provide the best education possible for all the pupils and second, to serve the best interests of all the taxpayers.

Closely connected with this two-fold duty is the main task of drawing up the proposed budget to reflect the needs of the new year. The board is confronted with myriad problems stemming from ever-increasing enrollment, mounting costs in most items and the pressure of time and space to establish a secure, long-range future for the twelve grades.

A prerequisite to the annual meeting is a careful study by all the citizens of the budget and the reports and recommendations of all school officials.

Since last March much has been accomplished. Four classrooms and washrooms were added to the Clark School, an outside boiler room was built to house heating facilities adequate for future additions and two and a half acres for playground were purchased from Miss Honora Spalding. The final payment of this debt will be made in the 1968-69 budget.

Gratitude goes to the building committee, Carl Merrill, chairman, Charles Lincoln, Howard Boothroyd and Rufus Brown, for their interest and zeal in seeing to it that all was ready for the August 25 dedication and the opening of school.

The total budget increase this year over the preceding year amounts to \$28,613. The principal areas of increase are as follows:

Instruction	\$ 7,491
Operation of Plant	2,090
Debt Service	3,290
Tuition	14,450
Miscellaneous (net)	1,292
Total	<hr/> \$28,613

Instruction reflects an increase because of the addition of a third first-grade teacher and also because of a proposed salary schedule change from a \$4,200 to a \$4,300 starting base and step increases of 5 per cent rather than 4 per cent which has been in effect. This change is in line with the recommendations of other school districts in Union No. 40.

The amount budgeted for plant operation is more because of the need for additional janitor service, occasioned for the most part by the increase in school building space.

The increase in debt service is in line with the amount appropriated one year ago to finance the addition to the Clark School.

The tuition increase is due to the greater number of Amherst pupils in the Milford schools. There are now 184 and it is estimated there will be 213 in the 1964-65 school year.

The following needs have been placed in a special article for consideration and action: to grade and fence the new Spalding field, estimated at \$3920; to hot-top an apron outside the new rooms at Clark, \$1352; to erect fence between playground and Wilkins-Morris properties, \$250.

In reference to the above costs the board points out the importance of realizing this is the last opportunity to receive 30 per cent state building aid to Amherst on district appropriations for the latest Clark addition project.

These facts and figures lead naturally into a discussion of the future direction of the Amherst schools, particularly the top six. The board agrees the unsettled condition existing during the past few years has to end.

At the special September school meeting legal steps were taken, simultaneously with Milford, to study the Authorized Regional Enrollment Area plan which be-

comes law July 1, 1964. Moderator Buchanan appointed Erik Brown, Paul Simpson and David Ramsay to work with three Milford citizens, appointed for the same purpose.

The school study committee, headed by Wallace Warren, was instructed to acquire facts and figures on an Amherst junior-senior high school should the AREA plan be unacceptable to either district.

Your board has worked with the various study groups and hopes to be in a position to recommend the most feasible and practical plan that offers the best education for our children.

Reports and open meetings to discuss their findings and to determine the area of interest of the people of Amherst will be conducted by these study groups in the spring.

Deep appreciation must go to Superintendent Goodman and Teacher Consultant Connolly, to Principal Wostrel and the school staff for their interest and work with our boys and girls; also to the Amherst PTA and other organizations who have given their time and effort to many worthy school projects; and to Custodian Drygala and his son Reiner for their excellent care of the three buildings.

Appreciation is also expressed to Robert Foster for his active interest of the last 18 months and regret for his resignation. The board is pleased to welcome Paul Simpson to serve until the March elections.

Respectfully submitted,

DAVID RAMSAY, Chairman

(Robert Foster, Chairman,  
March-December)

DOROTHY DAVIS, Secretary

PAUL SIMPSON

# ADMINISTRATION

## *Superintendent*

It is with a great deal of pleasure that I submit my third annual report. In this report, I want to draw your attention to the subject of teachers' salaries.

Each year the major item in the annual budgets of school districts is that for teachers' salaries. And each year, as your Superintendent of Schools, I find myself once more in the middle of numerous discussions on the subject of how much the teachers of the boys and girls in our school districts should be paid. Never have I met one person who wants to see a lowering of the quality of education our children receive, for we all realize how vitally important it is to see to it that our youth are well trained to take their place in tomorrow's unpredictable times. And yet, each year, the question, "How much is a teacher worth?" is raised again at budget time.

Surely the value of a good teacher cannot be measured in terms of dollars and cents. Each of us can remember those teachers who made such an important impact on our lives, and we want the same type of high quality teachers for our own children.

Concern that we pay enough to keep our excellent teachers here and attract top quality teachers for our children is not new in the 60's. A Union 40 school board, Milford, wrote this in the 1891 annual report: "We would gladly retain teachers when they are doing good work, but oftentimes just when of most value to us, they find they can do better elsewhere, and we must let them go. Experience has a money value and if we would have it, we must pay the market price."

### *Era of Change*

Even though the problems of finding and keeping

good teachers are not new, they are certainly very difficult, for many changes have taken place in our total way of life. Not all of these changes are for the good, but we must live with them. Better highways crowded with faster automobiles, television, electronic data processing, and space travel are only a few of the obvious changes. And there are changes in the teaching profession as well, changes with which teachers must live. To be trained for a teaching job, a person must complete at least a four year college program. To obtain a State teaching license, a requirement before a person can be employed as a teacher, specified college or university subjects must be completed. To retain this license, a minimum of six semester hours must be completed every five years.

### *Teachers and Pupils Faced with Explosion of Knowledge*

The above are minimum requirements. In Supervisory Union 40 school districts, the teaching staff has an excellent record of exceeding the requirements in order to keep up with the many changes taking place in the school curriculum.

The National Science Foundation is the most well-known group today that has improved subjects our boys and girls now study. New courses in mathematics, chemistry, and physics are already in your schools, and others will come as needed. "Needed for what?" one may ask. The answer is very simple. They are needed if our boys and girls are to be ready to compete with others for the jobs and life of tomorrow. The obvious changes I noted in highways, television, etc., are visible to all. Less visible but very important are those many changes resulting both in and from the tremendous explosion of knowledge which is part of our times.

*" . . . Because of a Love for Teaching Children . . . "*

I am very proud of each of our teachers, who be-

cause of a love for teaching children, has spent and is spending a great deal of his time and money to take the subjects needed in order for him to help our children. You are probably saying to yourself at this point, "What does all of this have to do with teachers' salaries?"

### *Trying to Find Good Teachers*

Each year I spend a great deal of time between January and the opening of school in September traveling to many colleges and universities to try to convince those seniors qualified to teach that they should apply for a job in our schools. More time is spent trying to keep our top quality teachers with us. Those outstanding teachers who decide to leave do so in almost every instance because of salary. Those who decide to come here do so because they feel the teaching conditions are good. *But many, many top notch people do not apply* because the salary schedule is not competitive with other school districts in New Hampshire, and even less competitive with the Southern New England states. Two years ago, twenty seniors at the University of New Hampshire and the same number each from Keene and Plymouth State Colleges applied for positions here. Last year only five from UNH were interested, and ten each from Keene and Plymouth. During the interview days in those colleges, superintendents from other New Hampshire school districts, with salaries ranging from \$4400 to \$7000, were attracting most of the candidates.

Two years ago, through vigorous recruiting, I was successful in attracting candidates from some of New England's top-rated colleges and universities in Maine, Massachusetts, and Connecticut. (Bowdoin, Colby, Williams, Harvard, Wesleyan) Last year, not one person from those institutions was interested in applying here — because of our salary plan.

Teachers are interested in location, housing, and teaching conditions as well as salary when they apply

for a position. Those teachers who are most interested in doing a superb job of teaching our boys and girls are the people you and I want for our schools. Our location and teaching conditions are excellent. Some citizens offer good housing at reasonable rates and more is needed. (Inform my office if you would have apartments to rent for the next school year.)

### *Need to Regain Competitive Status in Salary Plan*

The salary plan recommended by the Salary Committee and the School Boards of Milford, Hollis, and Amherst is one which will enable our schools to begin to regain a competitive status with other school districts. Although we will still be somewhat behind those New Hampshire districts paying from \$4400 or \$4500 to \$7000 and more, we will be moving forward and by this very act will encourage our own top quality teachers to stay and others to apply. The School Boards and administration can provide an excellent professional environment. I hope the citizens will provide the recommended salary plan, which will range from \$4300 to \$6112 (\$6090 Milford) next year with a future limit of \$6900.

In closing, I want to take this opportunity to thank Miss Connolly, every principal, teacher, aide or secretary, lunch worker, custodian, bus transporter — everyone connected with the operation of our schools — for cooperating to provide a good education for our boys and girls. A special expression of thanks is due from each of us to the members of the School Boards and to study committee members and other citizens who work for little or no remuneration, but from a sense of devotion to each town in Supervisory Union 40.

## OUR TEACHER CONSULTANT

Each school in this union functions in the light of one basic philosophy, that of understanding and providing for the individual and group needs of all its pupils. The means taken to implement this philosophy differs from school to school for the reason that no two schools or communities are exactly alike; consequently, the programs developed take into consideration the resources and requirements of the school itself. Within each school may be found some of the best educational practices in this country. What are some of these practices?

### *Guidance and Grouping*

Any school dedicated to such a philosophy must have operating a successful guidance program, since guidance is based upon the same philosophy — that the needs of each individual are recognized and are being met. Our elementary schools have been actively participating in a guidance program for several years. We group our children so they may achieve at their own rate. Frustration, which kills incentive and is a contributing factor for underachievement and dropouts, is lessened, and to a great extent, eliminated. This grouping is flexible, starting when the child enters school and continuing throughout the elementary years. Many children change from group to group as their progress and achievement indicate their needs. Because this grouping cuts across grade lines to such an extent, we may consider our schools ungraded in most subject areas. We may also consider it a program of continuous progress. Many children, who in the past would have repeated a grade, have taken the normal time to do their six years' work, as this program is especially favorable to those who make a slow start. Without experiencing failure, frustration, and the pressures of trying to catch up, they soon match the strides

the other children have taken for themselves. The accelerated group moves along at its own pace and is ready for advanced work when it enters Junior High. The large group of so-called average pupils have gained to the extent that the needs of children at either end of the range have been met. A surprising number of these children exhibit real leadership once they are placed in positions where critical thinking and creativity are demanded. They must rely upon their own resources rather than that of certain other pupils who naturally assert themselves. We find that many from this group work their way into an advanced group after a few years of experience in this program. Annual standardized tests compare the work of the children in the schools of our union with each other and with those on a national basis. The results are so encouraging that we know that this program "works."

One of our most significant kinds of grouping in recent years is that which provides for children in special classes. These children are so important to us and their education so necessary that our local, state, and federal governments recognize this and are actively engaged in furthering financial responsibility to meet their needs. We may be proud of work being done in our Amherst Special Class. Of great concern is the fact that we have more children who qualify for this type of education than can be cared for in our present program. Because of this, the number must be limited until another class is secured. Up to the present time, we have had children from Amherst, Milford, Brookline, and Mont Vernon. Plans are being considered for another such class. This would extend the age range and allow more children to have the type of education they deserve if they are to be educated to the extent of their potentialities.

#### *Guidance and Teacher Aides*

Another of our most promising practices is the use

of teacher aides. The aide allows the teacher to spend more time doing the work for which she is hired — that of teaching children. The greatest dividend is the added time it gives the teacher to work with the individual child, to be more aware of his needs, and to put into practice a program designed to meet these needs.

### *Guidance and Cooperative Teaching*

Some of our schools are in the process of developing programs of cooperative teaching as a means of strengthening the curriculum and providing more dynamic and effective learning situations. Where there is more than one teacher for a so-called grade all the children may have the benefit of the special talents of each teacher. The cooperative planning and teaching of lessons not only enhances the program but promotes professional growth and promises to strengthen the over-all education of our pupils. Large group, small group and individual learning situations extend the number of opportunities for providing for the individual differences of children, and for the children to share their own talents with each other. This type of program lends itself readily to the guidance of our children toward optimum development. Amherst is to be congratulated for its farsightedness in recent classroom construction where folding walls between classrooms facilitate this type of teaching. The teachers of this union, who have participated in the strenuous summer sessions of the Harvard-Lexington programs, deserve special commendation, as do those who are actively sharing in the application of the experiences in cooperative teaching and other excellent practices gained from these sessions.

### *Guidance and the Underachiever*

All of these desirable practices are intended to help prevent one of the greatest problems to be found in

education — that of underachievement. In a traditional school, the program is geared to the average on a take-it-or-leave-it basis. Those pupils who do not meet the standards set up for an entire grade repeat the work and then drop out at the first opportunity. The rapid learner has no choice but to become satisfied with what for him is mediocre work. When he enters college, he finds great difficulty in meeting the standards set for this more select group.

We realize that much more has to be done to solve the problem of underachievement, but feel very encouraged with the continuing increase in achievement at all levels. Our testing program is a constant tangible measure of this achievement. There are, however, other phases of growth that are difficult to measure but are very obvious results of our programs. These are in areas of development of the individual such as creativity, critical thinking, leadership, and a joy of learning.

### *Guidance and Dropouts*

Another goal we hope to attain through our elementary programs is the elimination of dropouts. Even though most of them occur beyond the elementary school, it is still everyone's concern, because somewhere along the line they are developing certain conditioning factors that lead to an unfinished education. This conditioning may be the result of continued failures and frustrations in school or at home. Lack of interest in education on the part of the parents may cause some of the dropouts. Sometimes too little is expected of the child, or too much. When the child cannot find his way beyond the impossible demands placed upon him by conflicting interests and requirements of the home and school, the threshold of frustration has been reached and to drop out of school is inevitable. What the parent thinks about school determines to a large degree

what the pupil's reaction is to it. The parent's satisfaction, dissatisfaction, or lack of interest in the school is usually reflected in the child's manner of adapting to a specific school environment, or to education in general. We are becoming increasingly aware of this problem, as we consider it to be a tremendous waste of one of our country's most precious resources — that of the human mind with all its potentials, and upon which the strength of this nation depends. Much of our future leadership could be found among these students who, for one reason or another, discontinued their educational development.

### *Cooperation*

Unquestionably, the education of our youth is the concern of many people and depends upon the cooperation of the school, the parents, and the total community. Fortunately, this rare combination is outstanding in this school union, and is the reason why our schools are doing such an exceptional job in educating our children.

To the teachers, Dr. Goodman, the School Boards, other school personnel, the parents, and countless friends of education, I would like to express my sincere appreciation for their dedication to the task of providing the best for our youth. I am proud to be a member of this group.

Respectfully submitted,

MABEL I. CONNOLLY,  
Teacher Consultant

## MILFORD SENIOR HIGH SCHOOL

George H. Corson, Principal

"What does the future hold for the education of the youth of Milford?" This question has been left unanswered for these many years. We now find our "backs to the wall," and a decision must be made at the March meeting. This problem has been studied by many committees over the years and it is hoped that the combined thinking of all these groups will be presented to you, the voter, by the committee now studying the so-called "Area Plan."

Basically the problem boils down to this: "Shall Milford exclude other towns from its educational system and educate its own or shall we become an Area school and combine with other towns to educate all area pupils." There are many pros and cons to be weighed in making such a decision. The answers to many questions should be sought after and deliberated upon before a final judgment is made. To make you realize the urgency of the situation and to help you answer some of these questions in your own minds, I would like to present some of the facts directly related to the problem.

Milford Senior High School was built to accommodate four hundred pupils. This year we have approximately 385 pupils and find ourselves in trouble, space-wise. We are holding study halls in the cafeteria and classes in the Music Room, the Conference Room and an occasional one on the Stage. One reason for this is poor utilization of the space which we have. The gymnasium, the largest single area we have, sits idle day in and day out. If gym classes were being held there regularly it would relieve the load on the classroom area of the building. Next year with an

estimated enrollment of 425 pupils we will have to use this area, if not for physical education, then for study halls. These study halls would require a teacher's time, thus it would seem wise to enhance our curriculum with physical education for all. If used for a study hall, additional units of furniture would need to be purchased and additional custodial time would be needed to place and remove these units each day during the regular basketball season, for each activity of school, or outside use not needing chairs.

The cafeteria, capacity of 100, is of real concern. With the expected enrollment, even if the pupils could be scheduled at an even number each of the four lunch periods, we are going to be very crowded. It would be a rare schedule indeed that would or could be made to keep the numbers so evenly distributed. It would seem very unwise to create another lunch period when some pupils eat as early as 11:20 a. m. and some as late as 1:15 p. m.

With increased emphasis on sciences and the necessity of having a broad curriculum in this area, we find our laboratory facilities being taxed to their limit.

In the field of Business Education, our facilities are operating at 100% utilization this year. This means that some pupils may be denied some course in this area another year.

We will have 406 lockers for 425 people. This will mean having two people use a single small locker in some instances.

In general, the above presentation of some of the problems facing us, points out the fact that next year will be the last year possible to operate with facilities we have and the numbers of pupils expected in the near future.

The following projections indicate the enrollments for the next five years at the Senior High School.

# ENROLLMENT — GRADES 6 - 12

January 1, 1963							
Grade	6	7	8	9	10	11	12
Mont Vernon	12						
Amherst	56	64					
Milford	110	145	142	155	138	131	117
Total	178	209	142	155	138	131	117

## PROJECTED ENROLLMENT

Senior High School — 1963 - 1967						
Year	1963	1964	1965	1966	1967	
Grade 10	138	155	142	201	178	
Grade 11	131	138	155	142	209	
Grade 12	117	131	138	155	142	
Total	386	424	435	498	529	

A decision must be made. What the decision is can only be determined by you, the voter.

The year 1962-63 was most profitable in many ways.

During May of 1963, a team of educators visited us for the purpose of evaluating our school. As a result of their findings, we were elected to membership in the New England Association of Colleges and Secondary Schools. This is an accrediting organization of nation-wide repute.

Our 1963 graduation class distinguished itself in many ways. Fifty-four percent of them went on to post secondary education. Twenty-two percent to four-year colleges and thirty-two percent to two-year colleges and other post secondary types of education.

A four-year study of the very critical, nation-wide drop-out problem has been conducted by the State Department of Education, and I am happy to report that Milford's drop-out percentage is one of the lowest in the state, being only four percent.

We the faculty, staff and pupils of Milford Senior High School want to thank the School Board, the Superintendent of Schools and his staff, the School Doctors and Nurses, the staff of the noon lunch program, the custodial staff, and all those who contributed in any way to the health, welfare, and education of the youth we serve.

Respectfully submitted,

GEORGE H. CORSON,  
Principal  
Milford Senior High School

## MILFORD JUNIOR HIGH SCHOOL

Chester S. Buck, *Principal*

To the School Board, Superintendent of Schools, and  
Citizens of Amherst:

In accordance with the request of the School Board, I herewith submit my report on the condition of the Junior High School building and recommendations for corrective action which will make it a suitable educational facility.

The year 1964 makes the old high school, now the junior high school building, 70 years old. For seventy years the building has withstood the onslaught of countless numbers of boys and girls. It is only natural that the vast number of students and the ravages of time would leave their mark. One has but to walk through the school with a critical eye to see evidence of the mark left by time and students. Plaster falling from ceilings and walls. Floors so uneven and worn that they are beyond sanding. Inadequate toilet facilities, faulty plumbing, shower rooms that are in poor

condition and the list of ills besetting this old building goes on and on.

The question is, what should be done about correcting this situation?

As I see it, there are three alternatives:

1. Do normal maintenance only and allow the building to fall into a greater state of disrepair or attempt piecemeal repairs.

2. Tear the building down as suggested by the Town Planning Consultant in his report to the town.

3. Renovate the building, planning for at least another 25 or 30 years of use.

Let us examine each of these three alternatives.

1. *Do normal maintenance only and allow the building to fall into even a greater state of disrepair or attempt piecemeal repairs.*

This alternative, I believe, is completely foolish. It is like the old adage, "Penny wise and pound foolish." True, it would appear that this would cost us no money, but in the long run it will cost the town far more than if they take some action now. When built in 1894, the main building without the gym and annex, cost \$36,661.30. This included building, grading the grounds, and having the building ready for students. By today's standards, the main building would cost between \$300,000 and \$500,000 to construct. If we sit back and do nothing to fix it up, sooner or later we will have to replace the building.

What about fixing a little at a time? Well, there's just so much to be done that we would never finish the job, and each year would mean more money for one thing or another. This is rather like trying to keep a car too long. It reaches the point where every week something else is worn out and one has a continual

expense just to keep the car going. With the exception of the fire escape and new sprinkler system, not much of anything has been done to or for this building in a good many years. To do nothing now will, with the passage of time, cost much more than acting now. The time to take some action is now.

2. *Tear the building down as suggested by the Town Planning Consultant in his report to the town.*

The planning consultant's suggestions simply stated are to tear down the old main building, leaving the gymnasium and annex. Connect the annex to the Jacques School with four classrooms and convert the Jacques School into a junior high school. This would necessitate building another elementary school, at least the size of the Jacques School, somewhere else in town. Apparently you, the voters, rejected this proposal at last year's school meeting when you voted to install the new \$11,000 sprinkler system. It would seem rather foolish to invest \$11,000 in the building and then tear it down. While the planning consultant's plan has some merit, I doubt if it could be completed for less than \$500,000. To say the very least, this is costly. Like most of you, I have a certain sentimental attachment for this old building. To tear it down would be akin to losing an old reliable friend. From a realistic point of view, I must also reject this plan because of its cost.

3. *Renovate the building, planning for at least another 25 or 30 years of use.*

The building appears to be structurally sound, and from this point of view will probably outlast many of the newer buildings. When constructed in 1894, builders were craftsmen who put something of themselves into their work. Things were built to last. This building was built to last, and last it has and will. However, the interior of the school needs a lot of work. The floors should be taken up and the subfloor rerailed;

then, put down plywood and lay tile over it. The ceilings should be repaired or replaced where necessary. The classrooms should be remodeled to obtain maximum use of available space. The building would be made brighter and more conducive to learning. Once the task is completed, it *must* have good maintenance. When some little thing goes wrong, it should be fixed at once and not left. Many of the problems in the school today started as little jobs, but they were neglected and as time and students marched onward, the little problems have become major ones. Once renovated, little problems must be attended to at once and the building must be maintained. In the long run this is good economy. I personally believe this is the best of the three alternatives. If this task is done, the building should be good, barring unforeseen accidents, for another 30 years. Expensive? Yes, of course it will be, but far cheaper than either of the first two alternatives. It is my understanding that there will be a Warrant Article to cover this job; if so, I think it deserves your support. If any persons or groups of people are interested in seeing the interior of the school, contact the principal and he will be most happy to arrange a top to bottom tour of the school. Let's give the old girl a real 70th birthday party and keep her around for her 100th birthday!

Respectfully submitted,

CHESTER S. BUCK, *Principal*

## PRINCIPAL'S ANNUAL REPORT – 1963-64

I have the honor to submit my third annual report.

### Staff

An increase in pupil population, the return of the seventh grade to Amherst and several resignations have resulted in the following changes in the teaching staff.

At the Brick School Mrs. Cynthia Lathrop and Mr. William Andrews joined the staff as teachers, respectively, of science and social studies for grades 6 and 7.

At the Clark School Mrs. Irene Cook and Mrs. Linda Meserve joined the staff to teach grade 5 and Miss Lucille Charron to teach grade 4.

In October Mrs. Marian Elliott assumed the position of first grade teacher, replacing Mrs. Lucille Palmer who had been substituting following the resignation of Mrs. Marion Wilcox during the summer.

In December the Amherst School Board authorized the employment of a third first grade teacher to reduce the pupil-teacher ratio of 35-1. In January, 1964, Mrs. Mary Tait took over the instruction of the third first grade class in the room which had been renovated last year for grade 3 use.

Our music and art supervisors this year are Mrs. Florence Stiff and Mr. James Locke, respectively.

Mrs. Ruth Griffin returned to the staff to serve once again as teacher aide.

### Instructional Program

At the Clark School, organization for instruction has undergone a change as an outgrowth of the evaluative criteria study conducted last year.

In an effort to improve grouping procedures, the pupils are grouped homogeneously, that is, at a similar level of achievement, for reading and math. They are grouped heterogeneously, or at mixed levels of achievement, for the rest of the curriculum. Under this

plan most pupils have two teachers instructing them each day.

Carefully worked out by the staff, the plan endeavors to de-emphasize the social groupings that seem to arise inevitably in a completely homogeneous arrangement and capitalizes on teacher strengths in subject areas. Yet it does not sacrifice the advantages of homogeneity in the basic skills areas of reading and math.

At the Brick School, full departmentalization is in effect this year for grades 6 and 7, with each teacher responsible for one of the basic subject areas. For the seventh grade, special effort has been made to add to their curriculum such activities as girls' glee club, physical education and library club. Mr. Andrews has also taken the responsibility for seventh grade guidance work. However, it is not possible to offer the complete junior high curriculum such as that given by Milford.

Last year Amherst sixth grade pupils attended the Outdoor Education Program at Boston University Sargent Camp in Peterborough, N. H. The five day program was so well received that this year's sixth grade will also attend. Living and working together, the group studies natural science and related subjects. The supervisory staff consists of nine Sargent Camp instructors as well as Mrs. Cynthia Lathrop and Mr. William Andrews from the Amherst staff and Mrs. Margaret Clark from Mont Vernon.

At the Clark School, the four room addition, completed in August, 1963, has proven to be most satisfactory. The folding walls between each of the two room units have justified their expense by frequent usage of the facilities for large group instruction and for a general assembly area. In addition, the flexibility in pupil grouping afforded by the movable walls

provides increased opportunities for cooperative teaching with its concurrent advantages.

Under the leadership of Mr. Laszlo Kertesz, the instrumental music program continues to flourish. A beginners' orchestra, composed of pupils who have just recently begun instrumental instruction, got underway in January. Both this organization and the more advanced orchestral group provide many excellent musical experiences for Amherst students as well as lessons in the discipline of teamwork.

### Looking Ahead

Next year will again find all of our classroom space utilized, with several rooms edging toward a registration of 40 pupils. Part of this capacity utilization is a result of the seventh grade's return to Amherst. One should note, however, that the population projection figures prepared by the Amherst School Study Committee in October, 1962, indicated an estimated student population in 1963-64 of 338 in grades one through six. Actual enrollment as of this report was 351, or an increase of 13 over the original estimate.

Last year, for the first time in its history, Amherst had two classrooms for each grade. This year another milestone was passed with the establishment of a third first grade classroom. It would seem logical to house these pupils in three second grade classrooms next September, but space is unavailable.

In view of these facts, it would seem that future population projection figures might well be increased by 5% to allow for this rapid growth in Amherst's population and to stimulate an upward revision in planning for future elementary classroom needs.

"We cannot, any more than could past generations, see the face of the future. But we know that written across it is the word education." To this end — the education of the young — our teachers have devoted their careers. But it is a task for which many hold the

responsibility. The parent, the school, the church, the state and the nation — all are deeply involved in this venture. If one falters, all will suffer. But if we share the task equally, with determination and selflessness, we need have no fear of the future.

I wish to express my appreciation to the Amherst School Board, Dr. Richard Goodman, Miss Mabel Connolly, the townspeople of Amherst and, in particular, the entire staff of the Amherst schools for their co-operation and support.

Respectfully submitted,

HERBERT J. WOSTREL,  
Principal.

## SCHOOL STUDY COMMITTEE REPORT

Since your committee reported last, several problems have been reviewed and studied. This report will bring you up to date on these studies and inform you of our recommendations.

Last spring the Milford Study Committee prepared material to carry out their responsibility in making a recommendation to Milford for a long range school program. A tuition program and a cooperative school were studied; during this time the legislature passed the AREA law. The Milford Committee and the Amherst Committee recommended that the proper steps be taken to study the AREA plan. Both towns then voted to appoint the legal committees and proceed.

The current situation indicates that during the 1965-66 school year Milford must build to accommodate the Amherst pupils. They have informed us that they will not build under the present tuition arrangement, which establishes that this program is no longer available to us. We have also been informed as follows: "At this time, based on our building capacities and enrollments, the Milford School Board believes it would be unwise to encourage your Study Committee to plan on having Amherst pupils in Milford after the 1965-66 school year." The Milford School Board also expressed the desire to have Amherst pupils in their school system under some long range plan.

The Amherst members of the AREA Planning Board have informed the Study Committee that a positive recommendation is being made, which will bring the AREA Plan to the voters of both towns in the last half of 1964. Public hearings will be held to acquaint the voters of both towns with the AREA school, and for this reason the School Study Committee is not covering this subject in detail.

Realizing that the Amherst voters would be called upon to make a decision on this subject, the most

logical alternative was studied, that of an Amherst Jr.-Sr. High School. Population studies were projected, building costs estimated, staff needs determined and an operating budget prepared.

Budgeting the costs on a 1967 basis gives the following results.

	AREA Plan	Amherst Jr. Sr.	Difference
Dollars	154,398	214,646	60,248
Cost per Pupil (307)	\$503	\$696	\$193

Projecting the valuation of the town to 1967 gives the following difference in tax rate.

AREA Plan	Amherst Jr. Sr.	Difference
\$27.22	\$37.84	\$10.62

From the above it is noted that our own Jr.-Sr. High School would cost \$60,248 more per year, a cost of 193.00 per pupil and in the years ahead an increase of 10.62 in the tax rate when compared to the Area Plan.

With the exception of one vote the Study Committee came to the following conclusions: (1) We should not build our own Jr.-Sr. High School in preference to the AREA Plan. (2) The AREA Plan is the most logical current solution to our problem.

## A MINORITY REPORT ON AN AMHERST/MILFORD AREA SCHOOL

In the summer or fall of 1964 you will be asked to vote on whether or not the Amherst School District should enter into an AREA school agreement with the Milford School District. For the following reasons I recommend that you vote NO (vote against an AREA school):

1. Under the AREA school law Amherst is a sending district; Milford a receiving district.

2. As it stands, the AREA school law forces a sending district to turn over forever complete control of AREA school affairs (including school costs) to a receiving district. For example,

(A) The AREA school law, from a practical point of view, makes it impossible for a sending district ever to withdraw from an AREA school. Once committed, a sending district is committed forever.

(B) Under the AREA school law, a sending district is taxed without representation in that a receiving district can decide, without reference to a sending district, to construct new, or make additions to existing, AREA school buildings. Also the receiving district can negotiate loans on AREA school property without reference to a sending district.

(C) Under the AREA school law, a sending district once in an AREA school has no vote whatsoever on any AREA school matter. All AREA school affairs are decided on solely by the school board and voters of the receiving district.

(D) Despite its payments to an AREA school, a sending district builds no equity in an AREA school.

3. It is not essential that Amherst make a decision now to go into an AREA school. The pupil population

projection figures for both Amherst and Milford indicate that Milford can continue to accept Amherst grades 8-12 until the end of the school year 65/66. The Milford School Board, however, has refused to commit themselves beyond the school year 64/65.

4. In other words, some time remains available to us before we must commit ourselves forever to an AREA school. During this time it is possible to:

(A) explore other school arrangements

(B) exert pressure to have the present AREA school law changed so that it is more favorable to a sending district.

5. The town of Amherst is growing rapidly and at a greater rate than Milford. There are good indications of future industrial and commercial development which could permit the tax burden to be distributed more equitably among the owners of private property. It follows that the people of Amherst might want and could afford their own junior senior high school at some time in the future.

6. In summary, there are no valid reasons why we must this year (1964) commit ourselves to a contract which will last forever. While time is on our side, this is not to say that a miracle automatically will occur which will solve our junior senior high school problems. Only continuing hard work by interested citizens might turn-up a solution which is preferable to an AREA school. If the AREA school turns out to be the sole solution for our junior senior high school students, we can vote on it again in 1965 or 1966.

PAUL H. BACKUS

Member of Amherst School  
Study Committee

### *Expenditures:*

Food	\$4,117 66	
Labor	2,762 63	
Equipment	49	
Miscellaneous	114 99	
Total Expended	-----	\$6,995 77
Cash on Hand June 30, 1963		3 10
Total		<u>\$6,998 87</u>

### *Other Program Resources:*

#### Donations

Food \$100.00, Labor \$400.00, Misc. \$10.00	\$ 510 00
USDA Commodities, Wholesale Value	933 59
	<u>\$1,443 59</u>

In the above chart the \$400.00 worth of labor donated is that provided by about 50 volunteer PTA mothers

who gave two hours per week for one month each. This is deeply appreciated by your staff.

Due to the low balance and tight budget it was decided by Dr. Goodman and your staff and school board that a rise in price to 30c per meal was warranted for the year 1963-1964. Various interested persons made gifts of seasonable foods which were appreciated. Also such things as dish towels, etc. are included in the miscellaneous gifts.

#### Balance Sheet for Fiscal Year Ending June 30, 1963

## SYNOPSIS OF AMHERST SCHOOL MEETING

March 8, 1963

The meeting was called to order by the Moderator, Mr. Creeley Buchanan, at 3:30 for the purpose of opening the polls. The motion was made and seconded to keep the polls open until 7:30. Vote carried. One hundred and seven votes were cast.

Article 1. Mr. Creeley Buchanan was elected Moderator.

Article 2. Mrs. Barbara Landry was elected Clerk.

Article 3. Mr. David Ramsay was elected to the School Board for three years.

Article 3. Mrs. Dorothy Davis was elected to the School Board for one year.

Article 4. Mrs. Barbara Landry was elected Treasurer.

Article 5. Mrs. Lathrop moved that these items covered by the budget be passed and covered at the time Article 8 was considered. Carried.

Article 6. Since all reports were printed in the Town Report, it was moved to pass this article. Carried.

Article 7. It was moved and voted that the Town Auditors serve as School Auditors.

Article 8. It was moved and seconded that Article 8 be passed until Article 13 had been acted upon. Carried.

Article 13. Mr. Jesse Weber moved that action by the meeting be on the article itself and not on the recommendation of the Ways and Means Committee. Seconded. After a lengthy discussion and several appeals from the ruling of the chair this motion carried.

The Citizens Committee presented a review of their findings and recommendations. Mr. Robert Foster spoke on behalf of the School Board and stated that at present all State Laws were being followed by the Board and the Carrier, and that the Board felt

further study was needed. Several members of the meeting asked the Board about the contract with the Carrier and how the rate was arrived at. The question was called and the article lost.

It was then moved and seconded to consider the recommendation of the Ways and Means Committee for further study. Seconded. A lengthy discussion followed relative to the wisdom of limiting the time of the study, and having a special school meeting called for the purpose of acting upon the recommendation of the study group. It was finally voted to have the study committee report to the school board prior to the September opening of school.

Article 8. The School Budget was discussed point by point by the School Board. It was moved and seconded to raise \$243,486.44 for the operation of the schools during the year 1963-1964.

Article 9. The meeting voted that the district be empowered to accept all grants and aid.

Article 10. Mr. David Ramsay moved that the district raise \$57,000 for the purpose of adding four classrooms to the Clark School and to purchase additional land. Seconded. Mr. Richard Smith amended the figure by \$4,000 to \$61,000 for the purpose of adding a fire resistant boiler room. Amendment carried.

A discussion followed regarding the figure as submitted by the School Board and the Ways and Means Committee. It was pointed out that additional sanitary facilities were not included in the estimate, but that at present were up to State Standards.

The vote carried unanimously.

Article 11. Mr. Foster moved the appointment of a building committee to consist of two citizens and the School Board. This motion was amended to read "four citizens and the School Board." Motion carried.

Article 12. Mr. Foster moved that the District be empowered to accept all grants and aid. Carried.

Article 14. Mrs. Lathrop moved that no action be taken on this article and that the recommendation of the Ways and Means Committee be adopted. Carried.

Article 15. Mr. Roland Fraser moved a vote of thanks for the excellent work of Mrs. Cynthia Lathrop.

Mr. Foster moved that the district vote to continue the school study committee. Carried.

Mrs. Lathrop offered a resolution thanking Mr. James Walker for his many years of service to the School Board and the District.

Mr. Worth offered a resolution commending the moderator for his excellent job.

The meeting adjourned at 10:50 P. M.

BARBARA H. LANDRY, Clerk

## SYNOPSIS OF SPECIAL SCHOOL MEETING

September 25, 1963

The meeting was called to order by the Moderator at 8:00 P. M. The Clerk read the warrant.

Article 1. Mrs. Dorothy Davis moved that the District create an area school district planning committee and elect three members, one of whom must come from the school board, or determine that they be appointed by the Moderator. Seconded and voted.

Mr. Robert Foster moved that the members of the area school study committee be appointed by the moderator. Seconded and voted.

Mr. Robert Foster moved that the present school study committee be instructed to study the matter of a comprehensive school in the Town of Amherst for grades 1-12 and report at the next regular meeting. Seconded and voted.

Mr. Whaland moved adjournment. Seconded.

Adjourned 8:30 P. M.

BARBARA LANDRY, Clerk
